

High Pressure Control Valve 8021

with integrated positioner

GS 4 series DN 25 up to DN 250

Pneumatic control valve for the control of neutral and aggressive fluids at high operative pressures with integrated positioner

- Space saving screwed wafer type construction
- Low weight in comparison to competitive valves
- Quiet operation
- High dynamic because of small stroke
- Control of high differential pressures with small actuators
- Greatly reduced energy consumption rates due to short strokes and low actuating forces on the throttle element
- High Kvs-values

Technical Information

Design	screwed wafer-type design for flanges acc. DIN EN 1092-1 Form B further versions see data sheet 8021-GS1 and -GS3	
Nominal Sizes*	DN 25 - 250	
Nominal pressure acc. DIN 2401*	PN160	DN 25 - DN 80
	PN 100	DN 100 - DN 150
	PN 40	DN 200 - DN 250
Nominal pressure ANSI*	ANSI 900	DN 25 - DN 80 (1" - 3")
	ANSI 600	DN 100 - DN 150 (4" - 6")
	ANSI 300	DN 200 - DN 250 (8" - 10")
Fluid Temperature	-60°C up to +350°C ** (+300°C for SFC)	
Ambient Temperature ***	-30°C up to +100°C	
Rangeability / Characteristic : digital Positioner	40 : 1 linear / 80:1 equalpercentage	
Leakage	Disc pair	Disc pair
	SFC	STN2
	< 0,0005	< 0,001
	IV-S1	IV
% from Kvs IEC 60534-4 EN 12266-1	E	E

* other pressure ratings on demand

** higher temperatures on demand

*** Please consider the temperature limitation of the positioner!

Kvs- and Cv-values see data sheet 8001.

Materials

Valve body	stainless steel 1.4571 or 1.4404 /1.4408	
Head section	stainless steel 1.4571 or 1.4404 /1.4408	
Diaphragm casing	aluminium, KTL-coated	
Actuator springs	stainless steel 1.4310	
Packing	carbon-filled PTFE (spring 1.4310)	
Valve stem	stainless steel 1.4122 or 1.4571, roller burnished	
Fixed disc	stainless steel coated	STN2-disc
Sliding disc	SFC-disc	STN2-disc

*further materials such as hastelloy and inconell on request

Positioner

For technical information of our positioners please refer to the corresponding data sheets.

Accessories

- Bellow
- Stroke Sensor
- Positioner (Ex ib IICT6)

Differential pressures

Admissible differential pressures
(For temperatures of up to 120°C (PN) / 38°C (ANSI))

For temperatures of 120°C for PN-ratings and 38°C for ANSI-ratings and above: obey application limits!

with integrated digital positioner, Type 8049
(also on-off valves and valves with other side-mounted positioner)

250	25	4,5	9	5	1500	43

Application limitations for GS4 valves in stainless steel

These pressure must not be exceeded for GS-valves from the GS4-series made of stainless steel, even though the actuator power might allow it. Applications for dangerous gases acc. pressure equipment directive 2014/68/EU category III (DN > 100; PS x DN > 3500) only after consultation.
